**Town of Mancos Water Systems Upgrade  
Construction Activities**

4/25/17

Dear Residents,

Ramco Developments, L.L.C. would like to inform all residents of Montezuma Street that we will be starting work on or around April 30<sup>th</sup> for the Mancos Water Systems Upgrade. This may affect homeowners in a couple of ways. First, the road will be closed to all though traffic, however residents should always be able to get to their homes during the construction period. With the exception being when crossing individual driveways with the main line, but trenching and backfilling will be done as quickly as possible so the driveways are only shut down for a couple hours at a time. Second, there will be a couple of main water line shutoffs associated with the improvements, also individual water services will be briefly shut off as we transfer your services to the new system. Ramco Developments will try to keep residents informed of these traffic and water shut down situations with as much notice as possible. Please feel free to contact me directly with any questions or concerns at 970-749-8366.

Thanks,

Burt Ramsey  
Ramco Developments, L.L.C.
