INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Town of Mancos, Colorado Mancos, Colorado 81328

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of the Town of Mancos, Colorado as of and for the year ended December 31, 2022, and the related notes to the financial statements which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Mancos, Colorado, as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Mancos, Colorado, and to meet other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Mancos, Colorado's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town
 of Mancos, Colorado's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Mancos Colorado's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Mancos, Colorado's basic financial statements. The accompanying other supplementary information and Local Highway Finance Report, as listed in the table of content, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basis financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and Local Highway Finance Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

glad Habot. C.

Majors and Haley, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

FINANCIAL HIGHLIGHTS

Key financial highlights for the Town in 2022 are as follows:

- ➤ In total, net position increased by \$1,863,873. Net position of governmental activities increased \$116,630, which represents a 1.7 percent increase from 2021. Net position of business type activities increased \$1,747,243 or 38.4 percent from 2021.
- ➤ General revenues accounted for \$2,623,263 in revenue or 51 percent of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$2,479,608 or 49 percent of total revenues of \$5,102,871.
- ➤ Governmental activities total assets decreased by \$319,298. Liabilities and deferred inflows of resources decreased by \$435,928.
- ➤ The Town incurred \$2,304,375 in expenses related to government activities. \$754,247 of these expenses was offset by program specific charges for services, grants and contributions. General revenues (primarily property taxes, sales taxes, franchise taxes, and mineral leasing revenues) of \$1,666,758 were adequate to cover the balance of the costs of these programs.
- Among the major funds, the General Fund had \$2,401,323 in revenues and \$2,688,995 in expenditures. Its fund balance decreased by \$287,672 from \$2,986,644 to \$2,698,972.
- Net position of the Enterprise Funds increased from \$4,545,606 to \$6,292,849.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

For the Year Ended December 31, 2022

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts: management's discussion and analysis, the basic financial statements, required supplementary information, and supplementary information. The basic financial statements include two kinds of statements that present different views of the Town.

- The first two statements are Town-wide financial statements that provide both short-term and long-term information about the Town's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Town, reporting the Town's operations in more detail than the Town-wide statements.
- The governmental funds statements tell how basic services such as general government were financed in the short-term as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about the activities the Town operates like businesses, such as water and sanitation services.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplemental information that further explains and supports the financial statements with a comparison of the Town's budget for the year.

Town-wide Statements

The Town-wide statements report information about the Town as a whole using accounting methods similar to those used by private companies. The statement of net position includes all of the Town's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

The two Town-wide statements report the Town's net position and how it has changed. Net position (the difference between the Town's assets and deferred outflows of resources less liabilities and deferred inflows of resources) is one way to measure the Town's financial position.

- Over time, increases or decreases in the Town's net position is an indicator of whether its financial position is improving or deteriorating.
- ➤ To assess the Town's overall health, you need to consider additional nonfinancial factors such as changes in the Town's property tax base and the condition of Town facilities.

In the Town-wide financial statements, the Town's activities are divided into two categories:

- ➤ **Governmental activities-** Most of the Town's basic services are included here, such as general government, public safety, public works and culture and recreation. These activities are financed mainly through property taxes and sales taxes.
- Business-type activities- The Town charges fees to help cover the costs of certain services it provides. The Town's water and sanitation facilities are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the Town's funds, focusing on its most significant or "major" funds, not the Town as a whole. Funds are accounting devices the Town uses to keep track of specific sources of funding and spending on particular programs. Some funds are required to be established by state law. However, the Town establishes other funds to help it manage and control its finances to achieve certain results.

The Town uses two types of funds:

Governmental funds- Most of the Town's basic services are included in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

a detailed short-term view of the Town's general operations and the services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. Because this information does not encompass the additional long-term focus of the Town-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.

Proprietary funds- Services for which the Town charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Town-wide financial statements. The Town's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information such as cash flow analysis.

FINANCIAL ANALYSIS OF THE TOWN AS A WHOLE

Total assets increased by \$1,393,346. Current assets increased by \$253,127. Net capital assets increased by \$1,140,219. Current liabilities decreased by \$368,841. Deferred inflows of resources increased by \$530. Non-current liabilities decreased by \$101,816.

The Town's combined net position was larger on December 31, 2022 than it was at December 31, 2021, increasing by \$1,863,873 to \$13,271,342. The Town's governmental type activities net position increased by \$116,630 to \$6,978,493. The net position of the Town's business-type activities increased by \$1,747,243 to \$6,292,849.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

Charges for services and other revenue accounted for most of the Town's total revenue, with each contributing 26 percent and 26 percent respectively (See Table 3). Another 24 percent came from sales taxes and the remainder from operating grants, capital grants and property taxes.

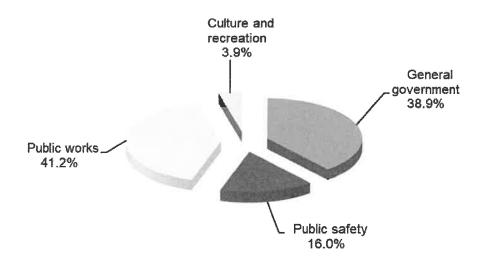

The Town's expenses are predominately related to public works (41.2 percent), general government (38.9 percent), and public safety (16 percent) (See Table 4). The Town's culture and recreation activities accounted for the balance of total costs.

Table 3
Sources of Revenue for Fiscal Year 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

Table 4
Expenses for Fiscal Year 2022

Governmental Activities

The primary sources of operating revenue for the Town come from sales taxes, charges for services, and other revenues. The Town receives approximately 76 percent of this funding from these sources while the remaining amounts come from capital grants and property taxes.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those service costs. Table 5 shows, for governmental activities, the total cost of services and net cost of services. That is, it identifies the cost of these services supported by general revenues including general property taxes and sales taxes.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

Table 5 Government Activities

	Total Cost of Services				Net Cost of Services				
	 2022		2021		2022		2021		
General government	\$ 1,260,760	\$	554,532	\$	615,432	\$	(145,183)		
Public safety	517,417		529,583		504,927		522,114		
Public works	398,338		390,000		347,767		(707,899)		
Culture and recreation	127,760		97,471		82,002		81,910		
Total	\$ 2,304,275	\$	1,571,586	\$	1,550,128	\$	(249,058)		

- > The cost of all governmental activities during the year was \$2,304,275.
- ➤ Some of the cost was financed by the users of the Town's programs (\$222,179)
- ➤ Federal and state government subsidized certain programs with grants and contributions (\$532,068).
- ➤ However, \$1,666,758 was financed by state and town taxpayers. This portion of governmental activities was financed with \$1,214,375 in sales taxes, \$128,094 in property and specific ownership taxes, \$102,387 in franchise taxes and \$221,902 in other general revenues.

Business-type Activities

Business-type activities are made up of the Water Fund and the Sewer Fund. These programs had revenues of \$3,681,866 and expenses of \$934,623.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

Information about the Town's major funds starts on page 16. These funds are accounted for using the modified accrual basis of accounting. All governmental funds have total revenues of \$2,421,007 and expenditures of \$2,700,275.

General Fund Budgetary Highlights

The Town's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

Over the course of the year, the Town made one revision to the annual operating budget.

Actual expenditures were \$638,828 less than budget, primarily because the Town budgeted conservatively for expenditures.

CAPITAL ASSET ADMINISTRATION

By the end of 2022 the Town has invested \$16.8 million in land, buildings, and equipment (including vehicles), of this total \$5.9 million was from governmental activities.

Table 6 shows capital assets for 2022 compared to 2021:

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) For the Year Ended December 31, 2022

Additional information on the Town's capital assets can be found in the Notes to the Financial Statements on page 29 of this report.

FACTORS BEARING ON THE TOWN'S FUTURE

At the time these financial statements were prepared and audited, the Town is not aware of any existing circumstances that could significantly affect its financial health in the future.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide the Town's citizens, taxpayers, and creditors with a general overview of the Town's finances and to demonstrate the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town of Mancos Administration Office, PO Box 487 Mancos, Colorado 81328.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended December 31, 2022

Net Change in Fund Balances Governmental Funds

(279,268)

Amounts reported for governmental activities in the Statement of Activities are different because

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2022

Summary of Significant Accounting Policies - The Town of Mancos, Colorado's (the Town) financial statements are prepared in accordance with U.S. generally accepted accounting principals (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statement of Interpretations).

The following significant accounting policies were applied to the preparation of the accompanying financial statements.

Reporting Entity – Town of Mancos, Colorado is a statutory (non-home-rule) Town and serves as an administrative unit of the State of Colorado.

The Town follows the Governmental Accounting Standards Board (GASB) accounting pronouncements that provide guidance for determining which governmental activities, organizations, and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The Town is not financially accountable for any other organization, nor is the Town a component unit of any other primary governmental entity.

Fund Accounting – The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and in the means by which spending activities are controlled. The various funds are grouped into two categories: governmental and proprietary. Each category, in turn, is divided into separate "fund types".

Governmental Funds – are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked funds (special revenue funds). The following are the Town's major governmental funds.

General Fund – is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include local property taxes, sales taxes and franchise taxes.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2022

Special Revenue Funds- accounts for revenue derived from specific taxes or other earmarked revenue sources that are legally restricted to expenditures for specific purposes.

Conservation Trust Fund- is used to account for revenues from sources that are restricted for parks and recreation.

Proprietary Funds-

Enterprise Funds – focus on the determination of the changes in net position, financial position and cash flows and are classified as either enterprise or internal service. The Town's enterprise funds are:

Water Fund- is used to account for the financial transactions related to the water treatment and distribution operations of the Town.

Sewer Fund- accounts for the sanitation services provided by the Town.

Basis of Presentation-

Town -wide Financial Statements- The statement of net position and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The statements distinguish between those activities of the Town that are governmental and those that are considered business-type activities.

The Town -wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with a brief explanation to better identify the relationship between the Town-wide financial statements and the statements for governmental funds.

The Town -wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Town and for each function or program of the Town's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the Town, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Town.

NOTES TO THE FINANCIAL STATEMENTS

<u>December 31, 2022</u>

Fund Financial Statements- Fund financial statements report detailed information about the Town. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the Town finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting – determines when transactions are recorded in the financial records and reported on the financial statements. Town -wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues- Exchange and Non-exchange Transactions- Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Town, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the Town receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when used is first permitted, matching requirements, in which the Town must provide local resources to be used for a specified purpose, and expenditure requirements, in which the

NOTES TO THE FINANCIAL STATEMENTS

<u>December 31, 2022</u>

resources are provided to the Town on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes collected within 60 days after year-end, interest, and certain grants.

Operating Income-Proprietary Funds- operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

Unearned Revenue- arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the Town has a legal claim to the resources, the liability for deferred revenue is removed and revenue is recognized.

Expenses/Expenditures- On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses and changes in fund net position as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds

Budgets and Budgetary Accounting – The Town is required by Colorado Statutes to adopt annual budgets for all funds. Each budget is prepared on the same basis (U.S. GAAP basis) as that used for accounting purposes, except for the Proprietary Funds, which are prepared essentially on the modified accrual basis of accounting. This basis of accounting is at variance with U.S. GAAP.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

Prior to October 15, the Budget Officer submits to the Town Board a proposed operating budget for the fiscal year commencing the following January 1.

The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted to obtain comments.

NOTES TO THE FINANCIAL STATEMENTS

<u>December 31, 2022</u>

Prior to December 31, the budget is legally adopted through passage of adoption and appropriations resolutions.

Formal budgetary integration is employed as a management control device during the year.

Department directors are authorized to transfer budget amounts within the department. However, the Town Board must approve any revisions that alter the total expenditures of any department.

Appropriations are adopted by resolution for each fund in total and lapse at the end of each year. Over-expenditures are not deemed to exist unless the fund as a total has expenditures in excess of appropriations.

Cash and Cash Equivalents – for the purpose of the Statement of Cash Flows of the Enterprise Funds is considered to be all of the highly liquid investments with a maturity of six months or less.

Short-term Inter-fund Receivables/Payables- During the course of operations, certain transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as internal balances on the Town -wide statement of net position and, classified as due from other funds or due to other funds on the balance sheet.

Capital Assets – General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Town-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the Town -wide statements of net position and in the respective fund financial statements,

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated general fixed assets are valued at their estimated fair value on the date donated. The Town maintains a capitalization threshold of five thousand dollars.

All reported capital assets are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives_	Estimated Lives
Buildings and Facilities	15 to 40 Years	15 to 40 Years
Equipment	5 to 15 Years	5 to 15 Years

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2022

<u>Property Tax Revenue Recognition</u> — Property taxes are billed and collected on behalf of the Town by the Montezuma County Treasurer. The property taxes are levied and certified in December of the year prior to the year the taxes are collected. Property taxes become an enforceable lien on January 1 of each year. Secured property taxes are due in two equal installments on February 28 and June 15, and are delinquent after February 28 and June 15 respectively. The entire balance can be paid by April 30 without penalty. Property taxes levied are recorded as deferred revenues in the year levied, as they are not due until the following year. An allowance for un-collectible taxes is not provided as the un-collectible amounts were determined to be negligible based upon an analysis of historical trends.

Compensated absences- Compensated absences arise from policies concerning vacation leave and compensatory days. Vacation pay is payable at termination after one year of employment up to 200 hours. Compensatory time is payable at termination. As of December 31, 2021, the amount of accrued vacation and compensatory time is not material. Therefore, no amount is reflected in the financial statements for accrual of compensated absences.

Accrued Liabilities and General Long-Term Obligations- All payables, accrued liabilities and long-term obligations are reported in the Town -wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the non-current portion of capital leases, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payment made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements.

Governmental Fund Balances- In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable- Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted- Amounts that can be used only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors. This includes the Town's TABOR emergency reserve, debt service reserves required by creditors and restrictions for parks and recreation required by certain granting agencies.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2022

Committed- Amounts that can be used only for specific purposes determined by a formal action by the Town Board.

Assigned- Amounts that are designated by the Town Board for a particular purpose but are not spendable until appropriated. This includes assignments for subsequent year's expenditures.

Unassigned- All amounts not included in the other spendable classifications

Use of Restricted Resources- When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Town's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the Town's policy is to first apply the expenditure toward restricted fund balance and then to other less restrictive classifications- committed and then assigned fund balances before using unassigned fund balances

Net Position- Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are liabilities imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Operating Revenues and Expenses- Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Town, these revenues are sales related to water and sanitation services. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activities of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Inter-fund Transactions- Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of management's estimates.

NOTES TO THE FINANCIAL STATEMENTS

<u>December 31, 2022</u>

<u>Cash and Investments</u> – The Town maintains its cash in the form of deposits in financial institutions.

Deposits- The Colorado Public Deposit Protection Act (PDPA) governs the Town's cash deposits. The statutes specify eligible depositories for public cash deposits, which must be Colorado institutions and must maintain federal insurance on deposits held. Each eligible depository with deposits in excess of the insured levels must pledge a collateral pool of defined eligible assets, to be maintained by another institution or held in trust for all of its local government depositors as a group, with a fair market value at least equal to 102% of the uninsured deposits. The State Regulatory Commissions for banks and savings and loan associations are required be statute to monitor the naming of eligible depositories and the reporting of uninsured deposits and assets maintained in collateral pools.

At December 31, the carrying amount of the Town's deposits was \$4,210,161 and the bank balance was \$4,234,448. The Town's bank balances at December 31, 2022 and during the year then ended were entirely covered by FDIC insurance or pledged collateral held by the Town's agent bank in the name of governmental accounts of which the Town is a part.

<u>Capital Assets</u> – Capital asset activity for the fiscal year ended December 31, 2022 follows:

Total depreciation government activities	\$ 215,979

Retirement Plans- In 1999, the Town adopted a deferred compensation plan under Internal Revenue Code Section 457. The plan is a defined contribution plan and participation is voluntary. An eligible employee may make an election to have their pay reduced by a percentage each pay period. The Town pays a matching contribution to each employee's account, up to a limit of 4.5% of the employee's compensation for the calendar year. For the year ending December 31, 2022, the Town's matching contributions totaled \$20,630.

NOTES TO THE FINANCIAL STATEMENTS

<u>December 31, 2022</u>

General Long-Term Debt- The Town has incurred the following long-term debt.

Business-type Activities:

Water Fund: The following items are obligations of and repaid through the Water Fund.

Revenue Bonds Payable- \$491,000, 2014 Series Revenue Bonds bearing interest at 3.25% with principal and interest payable semi-annually. These bonds were issued on November 19, 2014 to the USDA Rural Utilities Service to facilitate improvements to the Town's water system. The following are the annual requirements to service the bonds:

Total		2,907,417
Less Interest		(618,576)
Outstanding principal	\$	2,288,841

Fund Balance Restrictions and Assignments – Restricted indicates that a portion of the fund balance can only be spent for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors. Assigned indicates amounts that are designated for a specific purpose by the Town Board but are not spendable until appropriated. The Town uses the following restrictions and assignments:

Restricted for TABOR- indicates that a portion of the fund balance has been segregated for expenditures for declared emergencies only. Fund balance restricted for TABOR consists of \$100,000 in the General Fund.

Restricted for Debt Service- indicates that a portion of the fund balance has been restricted for debt service by outside creditors. The USDA Rural Utilities Service requires a debt service reserve equal to \$22,022 in the Sewer Fund.

Restricted for System Improvements- indicates that a portion of the fund balance represented by Undistributed Loan Proceeds in the Water Fund has been restricted for improvements to the Town's water systems.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2022

Restricted for Parks and Recreation- indicates that the fund balance of \$48,834 in the Conservation Trust Fund has been restricted for use on parks and recreation by Greater Outdoors Colorado which is the granting agency which supplies the revenue for this fund.

Assigned for subsequent year's expenditures- indicates anticipated fund balance available for appropriation in the next budget year. Fund balance assigned for subsequent year's expenditures consists of \$2,598,972 in the General Fund.

Commitments and Contingent Liabilities – There appear to be no commitments or contingencies that would pose a threat of significant liability to the Town.

Tax Spending, Revenue and Debt Limitations- Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments.

On the November 5, 1996 municipal election ballot, the voters authorized the Town to collect, retain and expend, without imposing any new taxes or increases in its present mill levy on general property or its sales and use tax rates, the full revenues generated by the Town's sales and use tax, non-federal grants, it's existing mill levy and any other excess revenues, commencing January 1, 1995, and each subsequent year, not withstanding any stat restriction on fiscal year spending, including without limitation the restrictions of Article X, Section 20 of the Colorado Constitution and spent as voter approved change and exception to the limits which would otherwise apply for: (a) street construction, repair, and maintenance; (b) capital improvements; (c) parks and recreation; (d) police protection; (e) storm drainage; (f) snow removal; (g) street sweeping; and (h) other municipal services.

The amendment also requires the Town to establish an Emergency Reserve, which must be equal to three percent of the current allowed revenue. Conditions under which these reserves may be spent are severally limited.

The Amendment is complex and subject to judicial interpretation. The Town believes it is in compliance with the requirements of the amendment. However, the Town has made certain interpretations of the amendment's language in order to determine its compliance.

Risk Management – The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The Town has purchased commercial insurance for such risks including worker's compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance in any of the past three years.
